[6s. 6d.]

THE REGISTRAR GENERAL'S REPORT TO THE HONORABLE THE COLONIAL SECRETARY.

Registrar General's Office,
Sydney, 6 October, 1869.

Sir,

I do myself the honor to forward the annexed Statistical Register for 1868, and to precede the same with the following Report, calling attention to the various returns as published in detail in the Register.

PART I.

POPULATION, IMMIGRATION, VITAL STATISTICS, &c.

Population.

On the 31st December, 1867, the estimated population of the Colony was 447,620; to this number there has been added during the year 1868, by excess of births over deaths, 11,260; and by the number arriving over those departing from the Colony 7,885, showing the estimated population, on the 31st December, 1868, as 466,765, being an addition to that of 1867 of 19,145, or 4·27 per cent. Page 2.

Births, Marriages, and Deaths.

By the Vital Statistical Register just published, it will be seen that during the year 1868 there were 18,485 births recorded, 3,736 marriages were entered as having been celebrated, and 7,225 deaths were registered, as also shown in Tables 3, 4, and 5 of part I of this Register. Page 3.

Immigration.

The number of immigrants arriving at the public expense was 470, and at their own cost 753, making a total of 1,223 (exclusive of persons landing from intercolonial and foreign vessels); the total outlay for the 470 who arrived at the public expense was £11,202 17s. 2d., being at the rate of £23 16s. 8d. per head. Page 4.

The decennial return showing the amount paid out of the Revenue of the Colony on account of immigration, with the number of immigrants introduced, will be found in Table No. 120, at page 179 of the Register.

Lunatic and Invalid Institutions.

There were on 31 December 1868, in the Institutions at Tarban Creek and Parramatta 1,230 persons, of whom 780 were males and 450 were females, being 330 males in excess of females. Of the total number in the Asylums 975 were British-born, 149 were Colonial-born, and 106 were Foreign-born. Page 5.

The ages are shown thus—

Of these patients 255 males and 161 females are supposed to be curable, and 525 males and 289 females are stated to be beyond remedy.

There were the same number (11) lunatics in the Private Asylum at Cook's River as in the year 1867.

Charitable Institutions.

Page 6. There appears by the returns furnished to be 37 Hospitals, 8 Benevolent Asylums, 10 Orphan and Industrial Schools (including the 3 Ragged Schools), and 5 Miscellaneous Institutions, distributed throughout the Colony, besides the before-mentioned Lunatic Asylums.

Of the 37 Hospitals, 5 were closed during the year; in the remaining 32 there were on 31st December 1867, 438 patients; during 1868 there were admitted 3,864 patients, and during the same period the number discharged was 3,415, and 450 died, leaving 437 patients in these Hospitals on 31 December last. During the year 5,661 paupers received out-door relief. The receipts were from Government £25,779 12s. 1d., and from voluntary contributions £12,117 9s., making a total of £37,897 1s. 1d.; the disbursements during the year being £36,499 0s. 6d.

Orphan Schools, &c.

The Orphan Schools, Industrial Schools, Asylums for Destitute Children, &c., numbered 10, in which were admitted 270 during 1868, discharged 147, and 13 removed by death. The number remaining in these Institutions on 31 December last (including those of 1867) was 1,848; the total receipts from Government being £21,442 1s., and from other contributions £6,130 15s. 7d., and the disbursements amounted to £26,780 12s. 8d.

Provisions and Clothing.

Page 11. The decennial return shows an advance in prices upon those of 1867, in the articles of wheat, flour, fresh meat, potatoes, and some minor articles. The clothing ranges much upon that of the preceding year.

PART II.

RELIGION, EDUCATION, AND CRIME.

The number of churches and chapels given in the various returns show 750, being an advance on those given for 1867 of 100; the average attendance however, cannot be stated, as many of the returns furnished include attendances at worship at other places than churches and chapels. Page 14.

The number of Ministers on the Register, under the Acts 19 Vic., Nos. 30 and 34, was 453. The expense for salaries, allowances, and contingencies, was £24,662 11s. 11d., and from the Church and School Estate Fund £4,565 5s. 8d.; making a total of £29,227 17s. 7d., as shown in the following table:—

Sunday Schools.

In the 740 Sunday Schools on the returns, there were 4,984 teachers, namely, 2,235 males and 2,749 females, with an average attendance of scholars of 43,794, or 21,248 male and 22,546 female; the average attendance exceeded that of 1867 by 4,282, and that of 1866 by 6,579, there being an advance in ten years of 43,794 against 16,590, or an increase of 27,204 scholars—a very marked advancement. Page 15.

Week-day Schools.

The total number of private schools is given as 496, with number of scholars attending 11,486, the number of teachers being 763.

Orphan and Industrial Schools.

The number of schools receiving State assistance was 1,254, with 1,814 teachers and 66,835 pupils; the total amount paid by Government from Treasury being £116,856 12s. 7d., and the amount received from voluntary contributions, fees, &c., £42,636 8s. 9d., making a total of £159,493 1s. 4d. Of the above schools 2 were orphan schools, 1 destitute children, 2 industrial schools, 748 schools under Council of Education (of which 289 were denominational), 496 were private schools,

the

the University, the 2 Colleges of St. Paul and St. John, the Grammar School, and the Deaf and Dumb Institute, making the total. The decennial return of schools and scholars shows a gradual increase, the year 1868 showing an advance on the preceding year of 3,652 scholars and of 74 schools.

The Asylum for Destitute Children having 684 inmates, received from the Colonial Treasury during 1868 £8,305 12s. 9d., and from voluntary contributions, fees, &c., £4,466 10s. 2d.

The Orphans Schools mustering 537 scholars, received from Government £6,438 6s. 5d., being £11 19s. 10d. per head. The scholars under the Council of Education, including the 289 Denominational Schools receiving assistance, numbered 53,752 scholars, with a receipt from Government of £87,834 11s. 7d., and £34,164 3s. 6d. from voluntary contributions, fees, &c. The Industrial Schools had 198 scholars, and received from Government £6,228 1s. 10d., or £31 9s. 1d. per head. The University of Sydney, St. Paul's College, St. John's College, Grammar School, and Deaf and Dumb Institute, received from Government £8,050, and from voluntary contributions £4,005 15s. 1d.

Crime.

Page 34. Page 36. Page 35. Page 37.

Under this heading the returns show that there were in 1868 300 Commitments for Trial in the Supreme and Circuit Courts, and 706 for Trial at Quarter Sessions, making a total of 1,006 commitments, from which 187 convictions were obtained before the Supreme and Circuit Courts, and 414 were obtained at Quarter Sessions, making 601 convictions out of 1,006 commitments.

In 1867 the commitments were 1,180, with convictions numbering 702; the convictions being less by 101 in 1868 than those in 1867, and showing a ratio per 1,000 of the estimated population at the middle of 1868 of 1·314 or 1 in 759, against 1·599, or 1 in 625, in 1867—a marked improvement.

Summary Jurisdiction.

Page 39.

These tables show that during 1868 there were 11,727 summary punishments inflicted—9,081 males and 2,646 females receiving punishment. The offences stood thus:—

	1867.		1868.	
	M.	F.	M.	F.
Offences against the Person	3,521	1,515	3,543	1,476
,, ,, Property	2,054	420	2,012	364

Totals	8,803	2,690	9,081	2,646
Together	11,493		11,727	

The increase in summary punishments in some degree neutralizing the improvement in the number of convictions before the Supreme and Circuit Courts and Quarter Sessions.

PART III.

PART III.

TRADE AND COMMERCE.

Imports and Exports.

The Import and Export Returns seaward, to be found at pages 44 to 93, exhibit the growth of our commercial intercourse with other countries. The important position which this Colony occupies as a market for home and foreign supplies, as well as the extraordinary expansive character of its producing power, cannot but be regarded with the deepest interest by those who are watching its advancement in material wealth, and noting the development of its unlimited resources. Pages 44 to 93.

The general results of our trading operations in 1868 may be gathered from the following figures:—

	Value of Imports.	Value of Exports.	Excess of Imports.	Excess of Exports.
United Kingdom...	£2,660,430	£3,486,960	£	£826,530
British Colonies ...	4,200,778	3,466,229	734,549	.....
Foreign States.....	1,190,169	239,715	950,454	.....
	£8,051,377	7,192,904	1,685,003	826,530

It will thus be seen that the net value of our Imports exceeded that of Exports by £858,473; showing that upon our transactions of the year a balance to that amount was debited to the Colony. Our indebtedness however to the United Kingdom for the period stated was cancelled, and left a sum of £826,530 to our credit, while the excess of Imports from British Colonies may be explained as chiefly accruing from heavy remittances in gold dust, wool, and other produce in exchange for our commodities in the regular course of trade and transit to the Home market, as instanced in the item of wool from the adjacent Colonies. The Imports in the aggregate were at the rate of £17 5s. per head of the estimated population at the end of the year 1868; and the Exports at the rate of £15 8s. 3d. per head upon the same calculation.

Compared with the year 1867, our progress is unquestionably satisfactory.

	Imports.	Exports.
1868	£8,051,377	£7,192,904
1867	6,599,804	6,880,715
Increase.....	£1,451,573	312,189

Victoria took from us goods to the value of £1,098,891, Queensland £1,014,366, and New Zealand £485,588; in each of which Colonies the interchange appears in their favour. The Imports from the same places exceeded our Exports thither in the following amounts:—Victoria £116,886, Queensland £491,604, New Zealand £235,348. The Imports from South Australia reached £272,283, against an Export value of £33,014, the excess £239,269 being chiefly for flour and grain. Page 44.

Of these items of Import it will be observed that Flour, Grain, Boots and Shoes, Haberdashery, Linendrapery, Spirits, Beer, Fruits (dried and green), Copper Ore,

Ore, Tallow, and Wool, were the chief, amounting together to a total value of £1,286,825. The Imports of Wool alone in 1868, from the Colony of Queensland, being valued at £771,325, against 336,197 in 1867.

Comparing the Import trade, it is found that the declared value of Imports at the Custom House has risen from £6,597,053 in 1859 to £8,051,377 in 1868, proving that the demand has kept pace with the increase of population, and that the credit of the Colony is well sustained; for it may be taken as a safe criterion in judging the stability of a community engaged in commercial traffic, that its position is in direct relation to the confidence it inspires in the mercantile world, resting upon its ability to realize from its established sources of wealth sufficient to meet all claims against it, after providing for its own immediate necessities. Page 94.

The Imports, which have decreased in value during the year under review as compared with 1867, are particularized in the table below; from which we learn that Sugar, Kerosene, Saddlery, Machinery, Iron and Steel, Cordage and Rope, are the most prominent, and would perhaps indicate that colonial industries have in some degree tended to this desirable reduction.

In illustration of the remarkable progress of our commerce and the opening out of our internal resources referred to in the first paragraph of this section of my Report, I have appended a statement embracing the last four decennial periods, commencing with 1828. This arrangement conveys at a glance the history of the Colony's advancement; while at the same time it is suggestive of what may yet be achieved by the display of the same energy and enterprise which has been the means of placing New South Wales in the first rank of British Possessions. If in a space of forty years, so much has been accomplised by a comparatively small community, what may we not expect with a largely increased population with wealth at command, opportunities to employ it, and backed as these advantages are by that energetic spirit which bore the early colonists onward in their work.

Port Phillip was separated from New South Wales in the year 1851, and Queensland in 1859, which will account for the apparent falling off in the wool export. These changes of course affect the other headings.

The figures under 1868 show the exact condition of the Colony for that year.

The decennial table at page 96 shows the export of Grain, *the produce of the Colony*. It will there be seen that 1,146,913 bushels of Maize were shipped to other Colonies—the largest export under this item during the decennial period. The export of Flour and Bread took second position during the same years, there being 7,341,500 lbs. exported. The export of Butter and Cheese however, does not rank very favourably compared with former years. Table No. 50, at page 97, shows the advance

advance in the item of Preserved Meats exported, accounting for the marked diminution under the head of Salt Beef, Pork, &c. The export of Wool in 1868, *the produce of the Colony*, as shown in Table 53 at page 98, was of the value of £1,879,751. The total value however, of Wool shipped, including Wool the produce of other Colonies, as shown at page 93, was £2,693,105. The Tallow, *the produce of the Colony*, exported in 1868, was large in quantity, being 93,901 cwt., of the value of £144,377; there having been also exported during the year 19,931 cwt., of the value of £31,963, previously received from other Colonies. The export of Coal, shown in the decennial table at page 100, was 548,036 tons, of the value of £292,201, a large item in the exports of the Colony. Gold and Coin, *the produce of the Colony*, exported, does not show so large an amount as previous years, being of the total value of £1,895,929, against £2,170,165 in 1867. *Vide* Table 58, at page 100.

SHIPPING.

Inwards.

The number of vessels entered Inwards at the several Ports of the Colony in 1868 was 2,073, representing 724,193 tons, and manned by 34,531 seamen; being an increase of 205 vessels, 77,223 tons, and 1,324 seamen, upon the returns for 1867. Shipping Inwards. Page 103.

With the exception of 1866, when the number of arrivals was 2,099, with an aggregate of 730,354 tons, the year 1868 exhibited the most favourable indication of activity among the shipping during any years of the last decennial period.

Of the vessels which anchored in our Ports in 1868, 1,922 were British, of 662,957 tons, giving employment to 32,537 men; 151 were Foreign, of 61,236 tons, with 1,994 men. Nationality. Table 64.

Of the British ships, 1,096 arrived with cargoes and 826 in ballast; of the Foreign, 71 had cargoes and 80 were in ballast. With cargoes or ballast.

PART IV.

MILLS AND MANUFACTURES.

The number of Mills for grinding and dressing grain has decreased from 188 in 1867 to 181 in 1868. It is however slightly in excess of that returned for the three years preceding. In 1860 there were 193 Mills in operation, since which the number has continued to decline. Mills. Page 108.

Upon comparing the returns for the last four years, we gather that there were—

Water „	18	13	15	15

It will therefore be observed that Steam Mills are gradually superseding those propelled by other motive power. The lagest number of Steam Mills were in the Metropolitan (15), Bathurst (14), and Armidale (11) Districts.

Manufactories, Works, &c. in 1868, show a marked increase over those returned for the year 1867. Manufactures, &c.

The classified Decennial Return (No. 76) presents a satisfactory picture of the progress of this branch of industrial pursuits. For the last two quinquennial periods, the following results are brought out— Page 112.

Woollen Manufactures are on the increase, 227,464 yards of Cloth and Tweeds having in 1868 been sent out from five establishments. In 1864 there were only 91,800 yards manufactured. Woollens. Page 113.

In 1868 there were 28 establishments for the manufacture of Soap and Candles, against 30 in the previous year. The quantity of Soap produced in 1868 weighed 81,549 cwt., and of Candles 14,155 cwt. In 1867 77,773 cwt. of the first, and 26,206 cwt. of the last mentioned article were turned out. Soap and Candles. Page 113.

The quantity of Tobacco manufactured in 1868 was 7,808 cwt., an increase of 875 cwt. upon the previous year. Tobacco. Page 114.

The number of Factories in 1868 exceeded by five those in operation the year before.

Taking the mean of the last ten years, the production of Tobacco in 1868 has been satisfactory.

In

In 1864 the quantity returned was 8,619 cwt.—the largest of any year during the period referred to. The scarcity of the imported article, and the partial stoppage of supplies from America at that time, doubtless gave an impetus to the growth and manufacture of the weed.

Boiling-down Establishments. Page 115.

The Boiling-down Establishments in 1868 had increased from 40 in 1867 to 49.

The number of Sheep, Cattle, and Pigs, slaughtered for Tallow and Lard during each year of the last quinquennial period is given below :—

	Sheep. No.	Horned Cattle. No.	Tallow produced. cwt.	Pigs. No.	Lard produced. lbs.
1864	39,927	60,090	75,241	4,569	19,736

1868	179,498	1,574	45,013*	466	5,180

It has been stated, and probably upon correct data, that the cause of the falling off in 1866 was occasioned by the high price of meat both here and in the adjacent Colonies. The item "Preserved Meat" accounts for the decrease of the article of tallow for the last two years.

The Tallow produced in the Metropolitan District is principally from the refuse from butchers' shops.

Rum. Page 116.

The distillation of Rum during the year 1868 reached 77,431 gallons, against 20,903 gallons in the year before.

Refined Sugar. Page 115.

The manufacture of refined Sugar increased from 119,693 cwt. in 1867 to 155,120 cwt. in 1868, a difference of 35,427 cwt. in favour of the year under review.

PART V.

PRODUCTION.

Gold by escort. Page 118.

The quantity and value of Gold brought to the Mint by escort in 1868 was slightly in advance of that returned for 1867, being 229,739 ounces, valued at £894,829 ; for the previous year the stated value was £863,798. In 1862 it was £2,212,534, the highest of any year during the decennial period.

The following abstract statement gives the quantity and value of Gold received during each of the last five years, from the Western, Southern, and Northern Districts. The decline would appear to have been general, and may probably be attributed to attractions elsewhere, as well as to the migratory propensities of the mining population.

The

* The quantity of Tallow exported is stated as 93,901 cwt. If these figures are correct, then the collections made by the Police as to the quantity produced at the several Boiling-down Establishments must be considerably below the mark.

The average price of Gold in the Western District was £3 16s. 10d. per oz.; in the Southern District £3 17s. 5d. per oz.; and in the Northern District £3 14s. 9d. per oz. Average price of Gold.

The number of Miners' Rights issued in 1868 was 12,124, and in 1867 13,534; in 1864 it was 15,508. Miners' Rights. Page 218.

Coal Mines.

The Coal Mines have been steadily advancing since 1863. The produce of 18 mines in that year is given as 433,889 tons, valued at £236,230. In 1868 the quantity of coal raised from 23 mines amounted to 954,231 tons, of the value of £417,809; with every prospect of the same satisfactory progression. Coal raised and value. Page 119.

The Export of Coal to the neighbouring Colonies and to Foreign States in 1868 as compared with 1867 was as follows:— Comparison of 1868 with 1867.

From the return it will be perceived that the trade with China and Eastern ports, in 1868, comprised 26·46 per cent. of the whole quantity of Coals shipped to Foreign account.

Copper.

The quantity of Copper Ore brought to grass in 1868 is stated in the Returns to have been 3,466 tons 3 cwt., valued at £34,200; an increase of 580 tons when compared with the operations of the previous year. Copper Mines. Page 119.

Iron.

The Iron Mine at Nattai continues to be non-productive. Iron. Page 119.

Oil.

The Hartley Kerosene and Paraffine Company raised 13,912 tons of Shale in 1868, valued at £41,736, against 4,000 tons the year before. Kerosene Shale. Page 119.

The Great Western Company has been actively employed, 1,000 tons of Shale having been raised, valued at £3,000.

At the Wollongong Mine, situated on American Creek, 2,040 tons of Shale are stated to have been released from their bed, valued at £4,080.

In the Yass District, the Woolgarlo Galena Mining Company has recently commenced operations. Galena. Page 119.

When

When it is recollected that these mineral deposits were only brought under notice for the first time in the Statistical Register for 1865, the promoters would appear to have shown much perseverance and energy in rendering them so productive. As the Oil extracted from the Mineral is now establishing itself in the Colonial market, and is favourably spoken of by consumers, we may find it very shortly checking if not superseding the importation of the foreign article.

Agriculture.

The decennial return of the quantity of land occupied throughout the Colony during the year ended 31st March 1869, and the produce of the cultivated lands, will be found at page 128 in the Appendix to this Report. From the results exhibited by this return we learn that the occupation of the land is steadily increasing, and that the breadth of cultivation has consequently been extended in a corresponding ratio.

Occupiers of land. Page 126.

The number of occupiers of land, exclusive of those for pastoral pursoses, increased from 25,875 in 1867–8 to 26,581 in the year under review. Of these 16,510 were freeholders and 10,071 leaseholders. The former have increased at the rate of 5·67 per cent., but the latter class have decreased by 1·85 per cent.

Holdings. Page 126.

The total extent of land held decreased from 7,737,651 acres in 1867–8 to 7,464,924 acres in 1868–9, or 3·65 per cent. With regard to tenure, 5,018,301 acres, or 67·22 per cent., were freehold; and 2,446,623 acres, or 32·78 per cent., were leasehold. The area under the freehold title had increased by 441,271 acres, while that under lease had decreased by 713,998 acres—a falling off in the aggregate holdings of 272,727 acres.

The average quantity of land possessed by each freeholder in 1868–9 was $303\frac{3}{4}$ acres, by the leaseholder $243\frac{3}{4}$ acres.

Cultivation. Page 126.

As regards Cultivation, the freeholder had brought 277,082 acres under crop, while the leaseholder had 157,744 acres in the same condition. The whole area of cultivated lands had increased from 413,164 acres in 1867–8 to 434,826 acres in 1868–9, the increase being 21,662 acres, or 5·24 per cent.

Enclosed Lands. Page 126.

The acreage of Enclosed Lands not in cultivation had risen from 3,034,675 in 1867–8 to 3,301,140 in 1868–9, being an increase of 266,465 acres, or 8·78 per cent.

Unenclosed Lands. Page 126.

The extent of the holdings of Unenclosed Lands had decreased from 4,289,812 acres in 1867–8 to 3,728,957 acres in 1868–9, a falling off of 560·855 acres, or 15·04 per cent.

Wheat. Page 126.

Comparing the average of Wheat in 1867–8 with that in 1868–9, we find that in the former year there were 149,142 acres under crop, and in the latter 164,206, a difference of 15,064 acres in favour of 1868—the produce being 1,433,807 and 1,887,085 bushels respectively. The yield per acre during 1868–9 averaged 11 bushels 29 lbs., against 9 bushels 37 lbs. in the year before. The return for the Grain sown however, fluctuates considerably according to seasons. The produce for the past year may be looked upon as favourable.

Produce to population.

The Wheat crop was at the rate of 4 bushels and 2 lbs. to every head of the population; but as a portion has to be set aside for seed Wheat, and the average rate of consumption is calculated to be from 7 to 8 bushels per head, it follows that we produce insufficient to meet the demand by at least 50 per cent., which will account for the large importations of Flour and Bread-stuffs from the adjacent Colonies

Colonies and elsewhere, to satisfy the requirements of the community. It will therefore be understood that before the Colony can be regarded as self-supporting in this particular, the area of land for Wheat crop must be extended in a proportionate ratio—that is to say, we must increase the acreage so as to raise the produce to a level with our wants.

The Maize crop for 1868–9 exceeded that of the preceding year by 644,900 bushels. In 1867–8, 115,522 acres were planted, against 120,807 in 1868–9, being an increase of 5,285 acres, or 4·57 per cent. The yield in 1868–9 was 3,777,405 bushels, or 31 bushels 12 lbs. per acre, while that for 1867–8 gave 3,132, 505 bushels, or an average of 27 bushels 5 lbs. per acre. As the manufacture of Maizena or Corn Flour is largely increasing, and the soil and climate of this Colony so favourable for the growth of this grain, we may fairly calculate that it is destined to become a very important item in farming products. Maize. Page 126.

Barley covered 6,397 acres, or 1,257 acres in excess of 1867–8. The produce of the growth of this cereal increased from 62,392 bushels in 1867–8, to 94,715 bushels in 1868–9, giving 12 bushels 8 lbs. per acre in the former period, against 14 bushels 48 lbs. in that last mentioned. Barley. Page 126.

The quantity of land cultivated for Oats in 1868–9 was 12,129 acres, to 13,142 acres in the year before, showing a decrease of 1,013 acres. The yield however, was in excess of that for 1867–8, which gave but 156,965 bushels, against 164,687 in 1868–9; the average return per acre being 13 bushels 34 lbs. in 1868–9, to 11 bushels 56 lbs. in 1867–8. The produce of the crop of Oats in 1866–7 was 304,028 bushels, since which time it has decreased. Oats. Page 126.

The area of land brought into cultivation for Potatoes in 1868–9 covered 16,391 acres—an increase of 951 acres when compared with the preceding year. The produce was 30,768 tons, or 2,714 tons less than that of 1867–8. The average crop for 1868–9 was 1 ton 17 cwt. per acre, while in 1867–8 it was 2 tons 3 cwt. The quantity produced in 1868–9 was less than in any year of the last sexennial period. Potato crop. Page 126.

The Hay crop produced 80,543 tons against 91,869 in 1867–8, showing a decrease of 11,326 tons. The average per acre in 1867–8 was 1 ton 5 cwt.; in 1868–9, 1 ton 3 cwt. Hay. Page 126.

The returns for the past year fail to show the extent of land laid down for Cotton, or the quantity grown; from which it may perhaps be inferred that its cultivation is not sufficiently remunerative to induce its continuance. The produce in 1865 appears to have been the largest recorded, being 29,012 lbs.; the following year, however, it fell to 380 lbs.; the next there were no returns furnished; but in 1868 it appeared to revive, as 13,680 lbs. were stated to have been grown. Cotton. Page 126.

In 1868 the Tobacco crop covered 875 acres, against 626 acres in the year before, producing an increase of 1,890 cwt. In 1863, during the period of the American struggle, 15,315 cwt. were returned as the yield of that year, which, from the comparatively small importation of this article, probably found a ready and paying market; since the American trade has been reopened, the imports of Tobacco have swelled considerably, and perhaps tended to check the enterprise of the colonial grower, who appears to have turned his land to other account. Tobacco. Page 126.

The cultivation of the Sugar-cane is now becoming a permanent industry, and assuming a most important feature in agricultural operations. In 1864, when the first returns were furnished to this department, there were only 2 acres in crop, which Sugar-cane crop. Page 126.

which produced 280 lbs.; since then the extension of the growth of Sugar has attracted considerable attention; and I doubt not that in a few years the importations of this article of general consumption will be sensibly diminished by the encouraging results of the enterprising efforts of the settlers.

To afford a clear view of what has been achieved in this branch of agriculture, I append a brief statement of the progress of the plantations from the year 1864.

With such an extraordinary productive increase, and taking into consideration the fact of the canes planted within the last three or four years coming into full bearing and perfection, we may now with confidence look forward to a multiplied return of the yield of this new source of wealth.

Vineyards.

The breadth of land devoted to the growth of the Grape has also largely increased. From the statement (Table 95, page 128) we learn that in 1864 there were only 1,640 acres under cultivation, producing 136,976 gallons of Wine, 2,033 gallons of Brandy, and 393 tons of fruit for table use. Since then the acreage has annually been extended, and the produce has been correspondingly large, as will be seen by the following figures :—

			Acres.		Gallons of Wine.		Brandy manufactured.
Year ending 31st March,	1865;	acres in crop	1,849;	producing	161,298	...	3,077

besides an average of 593 tons of fruit annually for table use.

As regards the quality of the Wine produced in the Colony, competent judges affirm that it will bear a favourable comparison with the greater portion of those imported, besides being decidedly more wholesome from its purity. Its cheapness is another advantage which will aid its becoming more generally appreciated.

Pastoral.

The returns of Live Stock for 1868 present a favourable comparison with those for the previous year.

Live Stock.

With the view of adding to the interest which invests this important source of Colonial wealth, I have tabulated the information possessed by the Department relating to pastoral pursuits, commencing with the year 1828, and showing the increase for each decennial period from that time. In perusing this table, it should be borne in mind that although the numbers of Live Stock appear large, yet from the parent stock of this Colony sprung those vast herds and flocks which now spread over Australia and New Zealand, not alone feeding their rising populations, but supplying an Export for the home market in the staple article of Wool alone to the value of £1,879,751 annually, as shown in the export return to be found in the Appendix.

Taking

Taking the fair average market value of Live Stock at the present time, we may assume that the pastoral returns represent the enormous sum of over ten million and a half pounds. Distributing the number of stock over population, there would be for every head nearly 4 horned cattle and 32 sheep. In 1860 it was calculated that there were 7 horned cattle and rather more than 17 sheep to each person. Aggregate value.

The following figures illustrate our progress in Live Stock for the past forty years :— Progressive increase.

	Horses.	Horned Cattle.	Sheep.	Pigs.

1868 ...	280,818	1,761,411	15,080,625	176,901

Victoria was separated in 1851, and Queensland in 1859.

In my Report preceding the Table for 1867, I appended a statement showing the total number of Live Stock in the Australian Colonies, including New Zealand ; I now reproduce those figures, conceiving they will afford conclusive evidence of the astounding growth of this pastoral property. Aggregate Stock throughout Australia and New Zealand.

It appeared from the latest available returns that in 1867 there were throughout the group of Colonies 636,674 horses, 3,867,678 horned cattle, 46,812,859 sheep, and 598,430 pigs.

These numbers are the accumulated products of the comparatively insignificant returns of Live Stock in 1828.

PART VI.

MONETARY AND FINANCIAL.

Coin and Gold Bullion.

We now come to the Monetary and Financial Returns, as published in tables 101 to 133 inclusive, pages 134 to 193 of the Register, from which it will be seen that on 31 December 1868, the British Coins and Australian Sovereigns and Gold Bullion in the Mint, Treasury, and the Banks, was £2,379,916 3s. 11d., being an increase of that in the same coffers on 31 December of the preceding year of £598,098 12s. 9d. The average of the year shows £2,009,826 1s., against that of 1867 of £1,727,932 5s. 6d.

Notes in circulation.

The notes in circulation on 31 December 1868, were to the value of £719,684, the average circulation being stated at £653,183 ; those of 1867 were respectively, in circulation, 31 December 1867, £664,818, average £531,516.

The average liabilities and assets of the various banks, and of the capital and profits, are shown in the Quarterly Returns published in Table 110.

The

The total liabilities on 31 December 1868, for notes and bills in circulation, deposits and balances due to other Banks, is given as £7,533,690 8s. 4d., while the assets are shown as £11,690,225 7s. 3d., including Government securities.

The paid-up capital is given at £7,634,656, and the amount of reserved profits at the time of declaring last dividend was £1,941,540 9s. 10d.

The returns for 1867 give £6,906,466 1s. 5d. as the liabilities, and £10,574,571 5s. 1d. as assets; the amount of reserved profits at time of declaring last dividend being £1,969,688 3s. 10d.; there being less by £28,147 14s. to the reserved fund in 1868 than in 1867. The assets stated in the quarterly return ending 31 December 1868, were in advance of 1867 to the extent of £1,115,654 2s. 2d.; but the liabilities of 1868 are more by £627,224 7s. 11d. than those for quarter ending 31 December 1867.

The Country Districts show £151,858 12s. 2d. to the credit of 3,666 depositors; the amount to credit of the Reserved Fund being £107,058, and to Profit and Loss Account £19,592 2s. 9d. The advance in the number of depositors was 1,730 in Sydney, and 490 in Country Districts. There was also an advance to the credit of the prisoners of £507 6s. The total deposits on 31 December of the respective years 1867 and 1868 being £711,245 19s. 9d. and £874,921 6s. 5d., an advance of £163,675 6s. 8d. in favour of 1868. The assets by investments on 31 December 1868, were £999,282 3s. 8d.

Mint.

The value of Gold, at £3 17s. 10½d. per oz., received at the Mint for coinage in 1868 was £2,359,525 10s. 1d., and sovereigns were issued to the value of £2,319,000. The Bullion issued, valued at the before-stated rate, was to the extent of £26,728 8s. 1d. The amount of Gold received at the Mint from the various Colonies was as follows:—

there being a marked diminution in each item of Gold received and Coin issued on the year 1867.

Electric Telegraphs.

Upon the Telegraph lines throughout the Colony there were forwarded during 1868 an advance in the number of messages of 2,425 on 1867. The extent in miles of the wire was, 1867, 3,567, and 1868, 4,385, an addition of 818 miles. The total cost of construction up to 31 December 1868, was £169,949 16s. Page 175.

Postal Communication.

From the decennial return at page 176, there appears to have been a diminution in the correspondence of 1868 to that of 1867, as regards the whole of the deliveries, foreign, inland, and town. The newspapers posted to foreign parts show an increase on 1867, but those posted for inland delivery were 334,750 short of those posted for same purpose in 1867. The diminution in the number of letters was as follows,—foreign delivery 42,394, inland 146,700, town 3,372. The total letters posted in 1867 were 6,748,356; in 1868 only 6,555,890 were posted. The parcels posted were also short by 72,310 of those of 1867. Page 176.

Money Orders.

The remittances during 1868, through the 161 offices, by Money Orders, were to the amount of £247,488 19s. 10d., represented in 56,492 Orders issued; the Orders paid were 50,437, of the value of £222,570 11s. 8d. The amount remitted and paid was in advance of that of 1867, although the number of Orders issued were less by 4,364. Page 177.

PART VII.

PUBLIC WORKS.

The expenditure upon Public Works during the year 1868 has been as follows:— Pages 196 to 211.

	£	s.	d.
Railways	560,840	17	10
Electric Telegraphs	12,755	0	8

This expenditure is inclusive of that paid from the Loan Fund.

The expenditure upon the Sydney Sewerage Works was £39,649 5s. 1d., and upon the Sydney Waterworks £55,690 9s. 9d. These works are not under the immediate superintendence of the Government. Page 211.

The expenditure upon Railways exceeded that of 1867 by £9,594; on Electric Telegraphs by £1,913; on Harbours and Rivers by £13,065; and on Public Buildings by £8,619.

Meteorology.

The Monthly tabulated results of Observations at the Government Observatory will be found in Table 135, at pages 212 and 213.

Real and Leasehold Estates.

The value expressed in the 2,136 absolute conveyances registered during 1868 was £550,696, and in the 76 absolute assignments of leasehold estates, £19,651. The grand total amount represented in the deeds registered (exclusive of leases) is £1,787,836, and the annual rental secured by the 283 leases registered is £16,750. The total number of deeds registered during 1868 was 5,110. These figures are exclusive of the transactions under the Real Property Act hereafter spoken of. Page 214.

Mortgages—Real Estate.

Comparing the Return 1868 with that of 1867, it is shown that the amount lent in the first-named year was less than that of 1867 by £7,927; the total amount lent during 1868 upon real security being £648,180. The amount lent upon Town, Suburban, Country, and Town and Country Lands conjointly, is given in the following table:— Page 214.

Year.	Lent on— Town Lands.	Suburban Lands.	Country Lands.	Town and Country conjointly.	Total.
	£	£	£	£	£
1868.....	249,691	68,919	306,478	23,092	648,180*

The number and amount of discharges of real securities during 1868 stood as follows:—Number, 662; amount, £399,493, against 514 of the amount of £452,933 in 1867. The conveyances under mortgages were respectively, in 1868, 246,—amount, £115,492; and in 1867, 58,—amount, £33,090.

* Being exclusive of the amount lent under Real Property Act.

Mortgages on Live Stock.

Page 215. Large sums are still annually lent upon this security. During 1868 there were 370 mortgages given, representing security for £1,399,479, over 2,997,019 sheep, 211,811 head of cattle, and 7,769 horses; and showing an advance upon the amount lent in 1867 of £194,468. The discharges in 1868 of previous mortgages numbered 111, representing £962,596.

Liens on Wool.

Page 215. These have during 1868 been the source of large accommodation. 286 liens were registered, of the value of £512,121. These securities are, however, only annual and therefore, much of the amount represented as lent in 1867, and perhaps previous years, is again represented as secured in 1868.

Liens on Growing Crops.

Page 215. This is also an annual security. In 1867 £13,895 is shown as having been lent on 171 liens; in 1868, 112 liens were registered, the amount secured being £11,308, a decrease on 1867 of £2,587.

Real Property Act.

Page 215. There has been a slight decrease of 20 during 1868, on the preceding year in the number of applications under this Act. The value of land included in the applications is expressed at £214,813; the fees received were consequently short of those of 1867 by £304 12s. 6d. The number of grants recorded is also short by 193 of those recorded in 1867; the value, however, expressed in the grants of 1868 exceeded that of 1867 by £59,057. The total consideration-money stated in the transfers effected under the Act in 1868 was £111,135 7s. 8d., and the amount of money secured by mortgages in the same year was £254,610 17s. 7d. The total value of the land under the operation of the Act, on 31st December 1868, was £2,661,484 1s. 5d.; the total number of instruments recorded in 1868 being 1,094.

Registration of Deeds and Real Property Act conjointly.

From the two branches of registration of transactions of real and leasehold estates, it appears from the returns that the absolute transfers under the two systems were to the extent of £681,482, and the gross amount of money lent was £902,790.

Civil Jurisdiction.

The return at page 216 shows that, during 1868, the number of writs issued for cases before the Supreme Court and Circuit Courts was 2,002. The cases entered for trial were 243, and judgments were signed for £247,695 0s. 6d. The bills filed in Equity were 25; the petitions numbered 67; and decrees and orders 151. Under the Testamentary Jurisdiction there were 236 probates granted, the estates being stated at £491,437, and 201 letters of administration were issued, of the stated amount of £125,498. There were under the Appellate Jurisdiction from Insolvency 4 cases, and 6 from District Courts. The number of civil cases tried during 1868, in the Supreme and Circuit Courts, were,—in the Central Court, Sydney, 92 cases; in Circuit Courts, 39; before special juries there were 3 cases tried; before the District Courts there were tried 5,984 cases; verdicts were obtained in 5,329 cases for the plaintiffs, and in 655 for the defendants; of the 5,984 cases tried, 94 were before jury and 5,890 without jury. Motions were made in 30 cases for new trials, of which 12 were granted.

Insolvencies.

The Insolvencies recorded in 1868 were less than those of 1867 by 150. The voluntary Insolvencies were 507, and 27 were compulsory. The stated liabilities and assets were as follow:— Page 218.

		£	s.	d.
Insolvencies 534	Liabilities	£572,651	11	10

In 1867 the area sold was 20,544 a. 0 r. 14¾ p., realizing £31,751 6s. 1d. The deposits forfeited were, in 1868, £151 2s. 7d.; in 1867, £377 13s. 7d.

realizing £133,470 3s. 4d.

The total area of land sold in Pastoral Districts in 1867 was 98,500 a. 2r. 14½ p., realizing £107,091 15s. 7d. The deposits forfeited were, in 1868, £443 4s. 3d., in 1867, £965 12s. 5d.

Conditional Purchases.

Page 227. A return has been added to the Register showing the number, area, and amount realized on Conditional Purchases since 1862. It will be seen by this return that 22,995 selections have been made, embracing an area of 1,764,061 acres; the amount paid for deposits being £441,015, for balance of purchase money, £81,373, and for interest £52,137, making the gross receipts £574,525. The return does not give the unpaid balance of purchase money; this sum must however be considerable, as the selectors are at liberty to retain possession of the lands upon payment of 5 per cent. per annum upon the unpaid balance of the purchase money. Deducting the amount paid for deposit and the amount for balance of purchase money from the gross amount of sales at 20s. per acre, there appears still to be due the sum of £1,241,673,—inclusive, however, of selections forfeited, the area of which has not been shown.

Alienated and Unalienated Lands.

The total acres of Alienated and Unalienated Lands in the various Counties, and in the remaining portion of New South Wales, will be found at page 228, tables 161 and 162. The lands leased for pastoral purposes will be seen in Table 164, at page 230. From this table it is shown that the total annual rent payable is £254,950.

The foregoing Report having called attention to the principal features of the accompanying Statistical Register, I have only to refer inquirers for more specific information to the various returns as published.

I have the honor to be,

Sir,

Your most obedient Servant,

THEO. JAS. JAQUES,

Registrar General.
